@dawoodshahat

I'm an aspiring software developer, technology enthusiast and third year software engineering student.

Institute of
Management Sciences

And I am looking for more exciting interdisciplinary projects to work with.

SKILLS AND TECHNOLOGIES

Dynamic and highly motivated fresher. I'm an extremely quick learner and a tech enthusiast.

Logical Reasoning

Quick Learner

Leadership Skills

Soft Skills

LANGUAGES

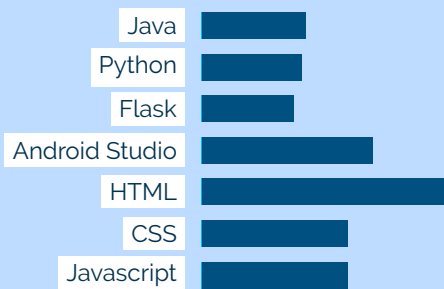

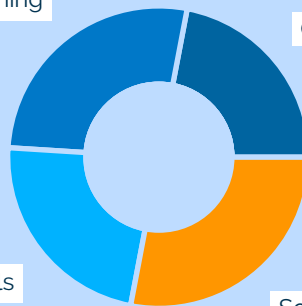

English

Urdu

Pashto

Throughout this degree, I have successfully worked with all these technologies, applied them to different projects. These projects are Open Sourced and are available on my Github account.

Time Table Management System : We used Python, Flask as technologies to build this system, which can generate time tables for students within seconds.

Quizzzy Android Application We created an android application, where you can play quizzes, create quiz, play quiz, in an interactive way.

Drum Machine : This is a fun project, where you can play with different music beats, We used HTML, CSS, JS and React as programming technologies.

Twitch Streamers: In this project we used twitch official api, This app shows you the current live streamers, offline streamers, new streamers can be added, removed.
